ARYAN ENGINEERS

we are engaged in designing, developing, manufacturing of superior quality Industrial Oil & Gas Burners, Air Blowers, Boilers, Thermic fluid heaters, Biomass Wood Pellet Burners, and Small Commercial Burner for industries. The offered products are manufactured with excellent grade material in compliance with international quality standards.

WHY USE BIOMASS PELLETS BURNER

Pellets burner are incorporated with a patented whirling flame mechanism, reduce the fuel cost up To 50% as compared to Indian commercial LPG provider in the local market & reduce cost & Most economical factors with environment friendly with out fly ash in the air

- Specially designed for wood pellet firing system
- Easy for routine cleaning
- Hassle-free operation
- High performance
- Ergonomic design
- Low maintenance
- Save 40-50% fuel cost against conventional oil & gas firing units
- No ID fan / FD fan require... Reduced elect cost
- Compact design compare to wood / coal firing system.

OUR PRODUCT

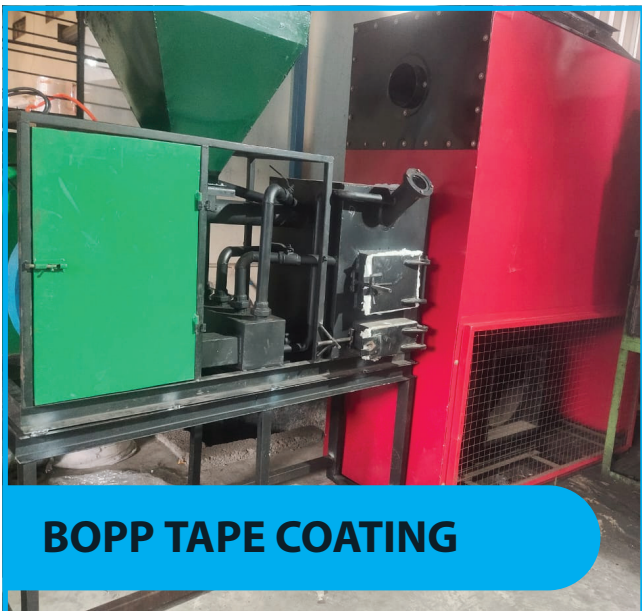

USE FOR

BAKERY OVEN

BAKERY OVEN

BOPP TAPE COATING

PELLET BURNER

ASPHALT MIX

PLASTIC ROTO-MOLDING

CIRCULAR BATCH FRYER

PRINTING & PAPER

TEXTILE INDUSTRIES

THERMIC HEATER
